### SELECTION AND AWARD CRITERIA

#### 16. Selection criteria

The following selection criteria will be applied to tenders. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

The selection criteria for Lot 1 are as follows:

- The average annual turnover of the tenderer for the last three years must be at least d UGX 300,000,000.00 Uganda Shillings;

The selection criteria for Lot 2 are as follows:

- The average turnover of the tenderer for the last three years must be at least UGX 460,000,000.00 Uganda Shillings;

Tenderers for more than one lot must have the cumulative turnover required for the specific number of lots being applied for.

2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.

#### These apply to Lots 1 and 2

a) The tenderer must be a firm duly registered and authorized to carry out supplies specified under this contract according to the national laws such as trading licence from the local authority permitting the supply of the specified commodities (copies of certificates are to be included in the tender); and

b) Has a professional certificate appropriate to this contract (copies of certificates are to be included in the tender); and

c) at least 3 staff currently work for the tenderer in fields related to this contract .

3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.

The selection criteria for Lot 1 are as follows:

a) The tenderer has delivered supplies under at least two contracts with a budget of at least UGX 300,000,000.00 internationally or in Uganda which were implemented during the following period: 3 years from the submission deadline of tender (2016-2019)

The selection criteria for tenders for Lot 2 are as follows:

- a) The tenderer has delivered supplies under at least two contracts with a budget of at least UGX 460,938,450.00 internationally or in Uganda which were implemented during the following period: 3 years from the submission deadline of tender (2016-2019)

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

- a) Final acceptance or completion certificate (for Criteria 3a)).

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

## 3. Participation

3.1 Tendering is open on equal terms to natural and legal persons (participating either individually or in a grouping – consortium – of tenderers) which are effectively established in one of the Member States of the European Union, an ACP State or in a country or territory authorised by the ACP-EC Partnership Agreement under which the contract is financed. Tendering is also open to international organisations.

3.2 These terms refer to all nationals of the above states and to all legal entities, companies or partnerships effectively established in the above states. For the purposes of proving compliance with this rule, tenderers being legal persons, must present the documents required under that country's law.

3.3 The eligibility requirement detailed in sub-clauses 3.1 and 3.2 applies to all members of a joint venture/consortium and all subcontractors, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. Every tenderer, member of a joint venture/consortium, every capacity-providing entity, every subcontractor providing more than 10% of the supplies must certify that they meet these conditions. They must prove their eligibility by a document dated less than one year earlier than the deadline for submitting tenders, drawn up in accordance with their national law or practice or by copies of the original documents stating the constitution and/or legal status and the place of registration and/or statutory seat and, if it is different, the place of central administration. The contracting authority may accept other satisfactory evidence that these conditions are met.

3.4 Natural or legal persons are not entitled to participate in this tender procedure or be awarded a contract if they are in any of the situations mentioned in Sections 2.4. (EU restrictive measures), 2.6.10.1. (exclusion criteria) or 2.6.10.1.2. (rejection from a procedure) of the practical guide. Should they do so, their tender will be considered unsuitable or irregular respectively. In the cases listed in Section 2.6.10.1. of the practical guide tenderers may also be excluded from EU financed procedures and be subject to financial penalties up to 10% of the total value of the contract in accordance with the Financial Regulation in force. This information may be published on the Commission website in accordance with the Financial Regulation in force. Tenderers must provide declarations on honour<sup>2</sup> that they are not in any of these exclusion situations. The declarations must cover all the members of a joint venture/consortium. Tenderers who make false declarations may also incur financial penalties and exclusion in accordance with the Financial Regulation in force. Their tender will be considered irregular.

The exclusion situations referred to above also apply to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. When requested by the contracting authority, tenderers/contractors must submit declarations from the intended subcontractors that they are not in any of the exclusion situations. In cases of doubt over declarations, the contracting authority will request documentary evidence that subcontractors are not in a situation that excludes them.

3.5 To be eligible to take part in this tender procedure, tenderers must prove to the satisfaction of the contracting authority that they comply with the necessary legal, technical and financial requirements and have the means to carry out the contract effectively.

<sup>2</sup> See PRAG Section 2.6.10.1.3 A)

3.6 Subcontracting is allowed but the contractor will retain full liability towards the contracting authority for performance of the contract as a whole.

When selecting subcontractors, suppliers should give preference to natural persons, companies or firms of ACP States capable of providing the supplies required on similar terms.

#### 4. Origin

4.1 Unless otherwise provided in the contract or below, all goods purchased under the contract must originate in a Member State of the European Union or in a country or territory of the regions covered and/or authorised by the specific instruments applicable to the programme specified in clause 3.1 above. For these purposes, 'origin' means the place where the goods are mined, grown, produced or manufactured and/or from which services are provided. The origin of the goods must be determined according to the relevant international agreements (notably WTO agreements), which are reflected in EU legislation on rules of origin for customs purposes: the Customs Code (Council Regulation (EEC) No 2913/92) in particular its Articles 22 to 246 thereof, and the Code's implementing provisions (Commission Regulation (EEC) No 2454/93. Goods originating in the EU include goods originating in the Overseas Countries and Territories.

All supplies under this contract must originate in one or more of the above countries for Lot 2.

All supplies under this contract may originate from any country for Lot 1 only.

Tenders must provide an undertaking signed by their representative certifying compliance with this requirement. The tenderer is obliged to verify that the provided information is correct. Otherwise, the tenderer risks to be excluded because of negligently misrepresenting information. For more details, see Section 2.3.5. of the practical guide.

4.2 When submitting tenders, tenderers must state expressly that all the goods meet the requirements concerning origin and must state the countries of origin. They may be asked to provide additional information in this connection.

#### 5. Type of contract

Unit-price

#### 6. Currency

Tenders must be presented in Uganda Shillings (UGX)

#### 7. Lots

This tender procedure is divided into lots.

- 8.3 The successful tenderer will be bound by its tender for a further period of 60 days. The further period is added to the validity period of the tender irrespective of the date of notification.
- 8.2 In exceptional cases and prior to the expiry of the original tender validity period, the contracting authority may ask tenderers in writing to extend this period by 40 days. Such requests and the responses to them must be made in writing. Tenderers that agree to do so will not be permitted to modify their tenders and they are bound to extend the validity of their tender guarantees for the revised period of validity of the tender. If they refuse, without forfeiture of their tender guarantees, their participation in the tender procedure will be terminated. In case the contracting authority is required to obtain the recommendation of the panel referred to in Section 2.6.10.1.1. of the practical guide, the contracting authority may, before the validity period expires, request an extension of the validity of the tenders up to the adoption of that recommendation.
- 8.1 Tenderers will be bound by their tenders for a period of 90 days from the deadline for the submission of tenders.

**8. Period of validity**

- 7.4 Contracts will be awarded lot by lot, but the contracting authority may select the most favourable overall solution after taking account of any discounts offered.
- 7.3 A tenderer may include in its tender the overall discount it would grant in the event of some or all of the lots for which it has submitted a tender being awarded. The discount should be clearly indicated for each lot in such a way that it can be announced during the public tender opening session.
- 7.2 Each lot will form a separate contract and the quantities indicated for different lots will be indivisible. The tenderer must offer the whole of the quantity or quantities indicated for each lot. Under no circumstances must tenders be considered for part of the quantities required. If the tenderer is awarded more than one lot, a single contract may be concluded covering all those lots.
- 7.1 The tenderer may submit a tender for one lot, several or all of the lots.

Lot #	Lot Description	Quantity	Quantity

Lot 2	Live Animal Truck	01	01

If the supporting documents are not written in one of the official languages of the European Union, a translation into the language of the call for tender must be attached. Where the documents are in an official language of the European Union other than English, it is strongly recommended to provide a translation into English, to facilitate evaluation of the documents.

15.2 Any such notification of alteration or withdrawal must be prepared and submitted in accordance with Article 10. The outer envelope must be marked 'Alteration' or 'Withdrawal' as appropriate.

15.3 No tender may be withdrawn in the interval between the deadline for submission of tenders referred to in Article 10.1 and the expiry of the tender validity period. Withdrawal of a tender during this interval may result in forfeiture of the tender guarantee.

**16. Costs of preparing tenders**

No costs incurred by the tenderer in preparing and submitting the tender are reimbursable. All such costs will be borne by the tenderer.

**17. Ownership of tenders**

The contracting authority retains ownership of all tenders received under this tender procedure. Consequently, tenderers have no right to have their tenders returned to them.

**18. Joint venture or consortium**

Each member of such joint venture or consortium must provide the proof required under Article 3.5 as if it, itself, were the tenderer.

## 19. Opening of tenders

19.1 The opening and examination of tenders is for the purpose of checking whether the tenders are complete, whether the requisite tender guarantees have been furnished, whether the required documents have been properly included and whether the tenders are generally in order.

19.2 The tenders will be opened in public session on .../06/2019 at 14.00hrs at Procurement and Disposal Unit, MAAlF, Entebbe by the committee appointed for the purpose. The committee will draw up minutes of the meeting, which will be available on request.

19.3 At the tender opening, the tenderers' names, the tender prices, any discount offered, written notifications of alteration and withdrawal, the presence of the requisite tender guarantee (if required) and such other information as the contracting authority may consider appropriate may be announced.

19.4 After the public opening of the tenders, no information relating to the examination, clarification, evaluation and comparison of tenders, or recommendations concerning the award of the contract can be disclosed until after the contract has been awarded.

19.5 Any attempt by tenderers to influence the evaluation committee in the process of examination, clarification, evaluation and comparison of tenders, to obtain information on how the procedure is progressing or to influence the contracting authority in its decision concerning the award of the contract will result in the immediate rejection of their tenders.

19.6 All tenders received after the deadline for submission specified in the contract notice or these instructions will be kept by the contracting authority. The associated guarantees will be returned to the tenderers. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

## 20. Evaluation of tenders

### 20.1 Examination of the administrative conformity of tenders

The aim at this stage is to check that tenders comply with the essential requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which affect the scope, quality or execution of the contract, differ widely from the terms of the tender dossier, limit the rights of the contracting authority or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not administratively compliant must be duly justified in the evaluation minutes.

If a tender does not comply with the tender dossier, it will be rejected immediately and may not subsequently be made to comply by correcting it or withdrawing the departure or restriction.

### 20.2 Technical evaluation

After analysing the tenders deemed to comply in administrative terms, the evaluation committee will rule on the technical admissibility of each tender, classifying it as technically compliant or non-compliant.

The minimum qualifications required (see selection criteria in contract notice point 16) are to be evaluated at the start of this stage.

Where contracts include after-sales service and/or training, the technical quality of such services will also be evaluated by using yes/no criteria as specified in the tender dossier.

20.3 In the interests of transparency and equal treatment and to facilitate the examination and evaluation of tenders, the evaluation committee may ask each tenderer individually for clarification of its tender including breakdowns of prices, within a reasonable time limit to be fixed by the evaluation committee. The request for clarification and the response must be in writing, but no change in the price or substance of the tender may be sought, offered or permitted except as required to confirm the correction of arithmetical errors discovered during the evaluation of tenders pursuant to Article 20.4. Any such request for clarification must not distort competition. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

### 20.4 Financial evaluation

a) Tenders found to be technically compliant will be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:

- where there is a discrepancy between amounts in figures and in words, the amount in words will be the amount taken into account;

- except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price

and the quantity, the unit price as quoted will be the price taken into account.

b) Amounts corrected in this way will be binding on the tenderer. If the tenderer does not accept them, its tender will be rejected.

c) Unless specified otherwise, the purpose of the financial evaluation process is to identify the tenderer offering the lowest price. Where specified in the technical specifications, the evaluation of tenders may take into account not only the acquisition costs but, to the extent relevant, costs borne over the life cycle of the supplies (such as for instance maintenance costs and operating costs), in line with the technical specifications. In such case, the contracting authority will examine in detail all the information supplied by the tenderers and will formulate its judgment on the basis of the lowest total cost, including additional costs.

20.5 Variant solutions

Variant solutions will not be taken into consideration.

20.6 Award criteria

The sole award criterion will be the price. The contract will be awarded to the lowest compliant tender.

Where tenders are of equivalent economic and technical quality, preference will be given to those with the widest participation of ACP States. See further Section 2.6.9. of the practical guide.

21. Notification of award

The contracting authority will inform all tenderers simultaneously and individually of the award decision. The tender guarantees of the unsuccessful tenderers will be released once the contract is signed.

22. Signature of the contract and performance guarantee

22.1 The successful tenderer will be informed in writing that its tender has been accepted (notification of award). Upon request of the contracting authority and before the signature of the contract with the successful tenderer, the successful tenderer shall provide the **documentary proof** or statements required under the law of the country in which the company (or each of the companies in case of a consortium) is effectively established, to show that it is not in any of the exclusion situations listed in Section 2.6.10.1. of the practical guide. This evidence or these documents or statements must carry a date not earlier than one year before the date of submission of the tender. In addition, a statement shall be provided that the situations described in these documents have not changed since then.

For contracts with a value of less than EUR 300 000, the contracting authority may, depending on its assessment of the risks, decide not to require proofs for selection criteria.

22.2 Upon request of the contracting authority, the successful tenderer shall also provide evidence of financial and economic standing and technical and professional capacity

according to the selection criteria for this call for tenders specified in the contract notice, point 16. The documentary proofs required are listed in Section 2.6.11. of the practical guide.

The contracting authority may, depending on its assessment of the risks, decide not to require proofs for financial and economic standing and technical and professional capacity.

22.3 If the successful tenderer fails to provide the documentary proof or statement or the evidence of financial and economic standing and technical and professional capacity within 15 calendar days following the notification of award or if the successful tenderer is found to have provided false information, the award will be considered null and void. In such a case, the contracting authority may award the tender to the next lowest tenderer or cancel the tender procedure.

The contracting authority may waive the obligation of any candidate or tenderer to submit the documentary evidence referred to above if such evidence has already been submitted for the purposes of another procurement procedure, provided that the issue date of the documents does not exceed one year and that they are still valid. In this case, the candidate or tenderer must declare on his/her honour that the documentary evidence has already been provided in a previous procurement procedure and confirm that his/her situation has not changed.

The contracting authority may, depending on its assessment of the risks, decide not to require the documentary proof of the selection criteria, but in that case no pre-financing will be granted: No documentary evidence of the selection criteria in point 16 of the contract notice shall be submitted but no pre-financing will be granted.

By submitting a tender, each tenderer accepts to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the contracting authority sends it to the electronic address referred to in the offer.

22.4 The contracting authority reserves the right to vary quantities specified in the tender by +/- 100% at the time of contracting and during the validity of the contract. The total value of the supplies may not, as a result of the variation rise or fall by more than 25% of the original financial offer in the tender. The unit prices quoted in the tender shall be used.

22.5 Within 30 days of receipt of the contract signed by the contracting authority, the selected tenderer must sign and date the contract and return it, with the performance guarantee (if applicable), to the contracting authority. On signing the contract, the successful tenderer will become the contractor and the contract will enter into force.

22.6 If it fails to sign and return the contract and any financial guarantee required within 30 days after receipt of notification, the contracting authority may consider the acceptance of the tender to be cancelled without prejudice to the contracting authority's right to seize the guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the contracting authority.

22.7 The performance guarantee referred to in the general conditions is not required for this tender.

### 23. Tender guarantee

No tender guarantee is required.

### 24. Ethics clauses and code of conduct

24.1 Absence of conflict of interest

The tenderer must not be affected by any conflict of interest and must have no equivalent relation in that respect with other tenderers or parties involved in the project. Any attempt by a tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the evaluation committee or the contracting authority during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of its tender and may result in administrative penalties according to the Financial Regulation in force.

24.2 Respect for human rights as well as environmental legislation and core labour standards

The tenderer and its staff must comply with human rights. In particular and in accordance with the applicable basic act, tenderers and applicants who have been awarded contracts must comply with the environmental legislation including multilateral environmental agreements, and with the core labour standards as applicable and as defined in the relevant International Labour Organisation conventions (such as the conventions on freedom of association and collective bargaining; elimination of forced and compulsory labour; abolition of child labour).

#### **Zero tolerance for sexual exploitation and sexual abuse:**

The European Commission applies a policy of 'zero tolerance' in relation to all wrongful conduct which has an impact on the professional credibility of the tenderer. Physical abuse or punishment, or threats of physical abuse, sexual abuse or exploitation, harassment and verbal abuse, as well as other forms of intimidation shall be prohibited.

### 24.3 Anti-corruption and anti-bribery

The tenderer shall comply with all applicable laws and regulations and codes relating to anti-bribery and anti-corruption. The European Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process or during the execution of a contract and if the contracting authority fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or execution of a contract already concluded with the contracting authority.

Tenders will be rejected or contracts terminated if it emerges that the award or execution of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a payee who is not clearly identified or commissions paid to a company which has every appearance of being a front company.

Contractors found to have paid unusual commercial expenses on projects funded by the European Union are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.

24.5 Breach of obligations, irregularities or fraud

The contracting authority reserves the right to suspend or cancel the procedure, where the award procedure proves to have been subject to breach of obligations, irregularities or fraud. If breach of obligations, irregularities or fraud are discovered after the award of the contract, the contracting authority may refrain from concluding the contract.

25. **Cancellation of the tender procedure**

If a tender procedure is cancelled, tenderers will be notified by the contracting authority. If the tender procedure is cancelled before the tender opening session the sealed envelopes will be returned, unopened, to the tenderers.

Cancellation may occur, for example, if:

- the tender procedure has been unsuccessful, namely where no suitable, qualitatively or financially acceptable tender has been received or there has been no valid response at all;
- the economic or technical parameters of the project have changed fundamentally;
- exceptional circumstances or *force majeure* render normal implementation of the project impossible;
- all technically acceptable tenders exceed the financial resources available;
- there have been breach of obligations, irregularities or frauds in the procedure, in particular where these have prevented fair competition;
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market.

In no event will the contracting authority be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure even if the contracting authority has been advised of the possibility of damages. The publication of a contract notice

does not commit the contracting authority to implement the programme or project announced.

## 26. Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may file a complaint. See Section 2.12. of the practical guide.

## 28. Early detection and exclusion system

The tenderers and, if they are legal entities, persons who have powers of representation, decision-making or control over them, are informed that, should they be in one of the situations of early detection or exclusion, their personal details (name, given name if natural person, address, legal form and name and given name of the persons with powers of representation, decision-making or control, if legal person) may be registered in the early detection and exclusion system, and communicated to the persons and entities listed in the above-mentioned decision, in relation to the award or the execution of a procurement contract.

#### Article 15 - Sufficiency of tender prices

14.7. Before provisional acceptance of the supplies, the contractor shall supply operation and maintenance manuals together with drawings, which shall be in such detail as will enable the contracting authority to operate, maintain, adjust and repair all parts of the supplies. Unless otherwise stated in the special conditions, the manuals and drawings shall be in the language of the contract and in such forms and numbers as stated in the contract. The supplies shall not be considered completed for the purpose of provisional acceptance until such manuals and drawings have been supplied to the contracting authority.

claim brought by any third party including creators and intermediaries for alleged or actual violations of intellectual, industrial or other property rights of any kind whatsoever based on the contracting authority's use as specified in the contract of patents, licenses, drawings, designs, models, or brand or trademarks, except where such infringement results from compliance with the design or specification provided by the contracting authority.

17.2. All industrial, intellectual and other property rights (including but not limited to patent rights and copyright) developed in connection with the tasks by or on behalf of the contractor, including but not limited to any rights in any documents prepared for the purpose of the contract or the tasks, shall remain vested in the contractor but the contracting authority shall have an irrevocable, royalty-free, non-exclusive licence of the above-mentioned rights for the purpose of the contract.

Such licence shall carry the right to grant sub-licences and shall be transferable by the contracting authority to third parties without the consent of the contractor being required.

All industrial, intellectual and other property rights (including but not limited to patent rights and copyright) developed in connection with the tasks by or on behalf of the contracting authority, including but not limited to any rights in any documents prepared for the purpose of the contract or the tasks, shall remain vested in the contracting authority but the contractor shall have the right at its cost to copy, use and obtain communication of these documents for the purpose of the contract.

Upon and notwithstanding any termination of the contract howsoever arising, as well as after completion of the tasks, the contracting authority shall continue to have the benefit of the licence referred to in Article 17.2, first paragraph.

## IMPLEMENTATION OF THE TASKS AND DELAYS

### Article 18 - Commencement order

18.1. Subject to the special conditions, the contracting authority shall fix the date on which implementation of the tasks is to commence and advise the contractor thereof either in the notification of award of the contract or by administrative order.

18.2. Save where the parties agree otherwise, implementation of the tasks shall begin no later than 90 days following notification of award of contract. Unless this delay results from the contractor default, after that date the contractor shall be entitled not to implement the contract and to obtain its termination and/or compensation for the damage it has suffered. The contractor shall forfeit this right unless it exercises it within 30 days of the expiry of the 90-day period.

### Article 19 - Period of implementation of the tasks

19.1. The period of implementation of tasks shall commence on the date fixed in accordance with Article 18 and shall be as laid down in the special conditions, without prejudice to extensions of the period which may be granted under Article 20.

19.2. If provision is made for distinct periods of implementation of the tasks for separate lots, in cases where one contractor is awarded more than one lot per contract, the periods of implementation of the tasks for the separate lots shall not be accumulated.

**Article 20 - Extension of period of implementation of the tasks**

20.1. The contractor may request an extension to the period of implementation of the tasks if it is or will be delayed in completing the contract by any of the following reasons:

- a) exceptional weather conditions in the country of the contracting authority which may affect installation or erection of the supplies;
- b) artificial obstructions or physical conditions which may affect delivery of the supplies, which could not reasonably have been foreseen by an experienced contractor;
- c) administrative orders affecting the date of completion other than those arising from the contractor's default;
- d) failure of the contracting authority to fulfil its obligations under the contract;
- e) any suspension of the delivery and/or installation of the supplies which is not due to the contractor's default;
- f) force majeure;
- g) extra or additional supplies ordered by the contracting authority;
- h) any other causes referred to in these general conditions which are not due to the contractor's default.

20.2. If the contractor considers himself to be entitled to any extension of the period of implementation under the contract, the contractor shall

- a) give notice to the project manager of its intention to make such a request no later than 15 days after the contractor became aware, or should have become aware of the event or circumstance giving rise to the request.
- b) If the contractor fails to give notice of a request for extension of the period of implementation within such period of 15 days, the period of implementation shall not be extended and the contracting authority shall be discharged from all liability in connection with the request; and
- c) submit to the project manager full and detailed particulars of the request, within 30 days from the above notification unless otherwise agreed between the contractor and the supervisor, in order that such request may be investigated at the time.

20.3.

Within 30 days from the receipt of the contractor's detailed particulars of the request, the project manager shall in agreement with the contracting authority, by notice to the contractor, grant such extension of the period of implementation of the tasks as may be justified, either prospectively or retrospectively, or inform the contractor that it is not entitled to an extension.

**Article 21 - Delays in implementation of the tasks**

21.1.

If the contractor fails to deliver any or all of the goods or perform the services within the period of implementation of the tasks specified in the contract, the contracting authority shall, without formal notice and without prejudice to its other remedies under the contract, be entitled to liquidated damages for every day, or part thereof, which shall elapse between the end of the period of implementation of the tasks, or extended period of implementation of the tasks under article 20, and the actual date of completion. The daily rate of liquidated damages is 5/1000 of the value of the undelivered supplies to a maximum of 15% of the total contract price.

22.5. Save where Article 22.4 provides otherwise, prior to issuing an administrative order, the project manager or the contracting authority shall notify the contractor of the nature and form of such amendment. The contractor shall then, without delay, submit to the project manager a written proposal containing:

- c) no administrative order is required to increase or decrease the quantity of any incidental siting or installation because the estimates in the budget breakdown were too high or too low.
- b) if the contractor confirms in writing an oral order given for the purpose of Article 22.4.a and the confirmation is not contradicted in writing forthwith by the project manager or the contracting authority, the project manager or the contracting authority shall be deemed to have issued an administrative order.
- a) if, for any reason, the project manager or the contracting authority finds it necessary to give an order orally, it shall as soon as possible thereafter confirm the order by an administrative order.

22.4. All administrative orders shall be issued in writing, it being understood that:

The project manager and the contracting authority shall have the power to order any amendment to any part of the supplies necessary for the proper completion and/or functioning of the supplies. Such amendments by administrative order may include additions, omissions, substitutions, changes in quality, quantity, form, character, kind, as well as in drawings, designs or specifications where the supplies are to be specifically manufactured for the contracting authority, in method of shipment or packing, place of delivery, and in the specified sequence, method or timing of implementation of the tasks. No administrative order shall have the effect of invalidating the contract, but the financial effect, if any, of all such amendments shall be valued in accordance with Article 22.7.

22.2. Subject to the limits of the procedure thresholds set in the practical guide, the contracting authority reserves the right to vary by an administrative order the quantities per lot or per item by +/- 100 % at the time of contracting and during the validity of the contract. The total value of the supplies may not rise or fall as a result of the variation by more than 25% of the tender price. The unit prices quoted in the tender shall be applicable to the quantities procured under the variation.

22.1. Contract amendments must be formalised by a contract addendum signed by both parties or by an administrative order issued by the project manager or the contracting authority. Substantial amendments to the contract, including amendments to the total contract price, must be made by means of an addendum. Any contractual amendments must respect the general principles defined in the practical guide.

## Article 22 - Amendments

- seize the performance guarantee; and/or
  - terminate the contract,
  - enter into a contract with a third party for the provision of the balance of the supplies at the contractor's cost.
- 21.3. If the contracting authority has become entitled to claim at least 15% of the total contract price it may, after giving notice to the contractor:
- 21.2. If the non-delivery of any of the goods prevents the normal use of the supplies as a whole, the liquidated damages provided for in Article 21.1 shall be calculated on the basis of the total contract price.

- a description of the tasks, if any, to be performed or the measures to be taken and a programme of implementation of the tasks;
- any necessary amendments to the programme of implementation of the tasks or to any of the contractor's obligations resulting from this contract; and
- any adjustment to the total contract price in accordance with the rules set out in Article 22.

22.6. Following the receipt of the contractor's submission referred to in Article 22.5, the project manager shall, after due consultation with the contracting authority and, where appropriate, the contractor, decide without delay whether or not to accept the amendment. If the project manager accepts the amendment, it shall notify the contractor through an administrative order stating that the contractor shall carry out the amendment at the prices and under the conditions given in the contractor's submission referred to in Article 22.5 or as modified by the project manager in accordance with Article 22.7.

22.7. The prices for all amendments ordered by the project manager or the contracting authority in accordance with Articles 22.4 and 22.6 shall be ascertained in accordance with the following principles:

- where the task is of similar character and implemented under similar conditions as an item priced in the budget breakdown, it shall be valued at such rates and prices contained therein;
- where the task is not of a similar character or is not implemented under similar conditions, the rates and prices in the contract shall be used as the basis for valuation as far as is reasonable, falling which the project manager shall make a fair valuation;
- if the nature or amount of any amendment relative to the nature or amount of the whole contract or to any part thereof is such that, in the opinion of the project manager, any rate or price contained in the contract for any item of work is, by reason of such amendment, rendered unreasonable, the project manager shall fix such rate or price as he thinks reasonable and proper in the circumstances;

- where an amendment is required by a default or breach of contract by the contractor, any additional cost attributable to such amendment shall be borne by the contractor.

22.8. On receipt of the administrative order, the contractor shall carry out the requested amendment according to the following principles:

- a) The contractor shall be bound by these general conditions as if the amendment requested by administrative order were stated in the contract.
- b) The contractor shall not delay the execution of the administrative order pending the granting of any extension of time for completion or adjustment to the total contract price.
- c) Where the administrative order precedes the adjustment to the total contract price, the contractor shall keep records of the costs of undertaking the amendment and of the time expended thereon. Such records shall be open to inspection by the project manager at all reasonable times.

22.9. The contractor shall notify the contracting authority of any change of bank account, using the form in Annex V. The contracting authority shall have the right to oppose the contractor's change of bank account.

## Article 23 - Suspension

- 23.1. The contractor shall, on the order of the contracting authority, suspend the execution of the contract or any part thereof for such time or times and in such manner as the contracting authority may consider necessary. The suspension shall take effect on the day the contractor receives the order or at a later date when the order so provides.
- 23.2. Suspension in the event of presumed breach of obligations or irregularities or fraud:  
The contract may be suspended in order to verify whether presumed breach of obligations or irregularities or fraud occurred during the award procedure or the performance of the contract. If these are not confirmed, performance of the contract shall resume as soon as possible.
- 23.3. During the period of suspension, the contractor shall protect and secure the supplies affected at the contractor's warehouse or elsewhere, against any deterioration, loss or damage to the extent possible and as instructed by the project manager, even if supplies have been delivered to the place of acceptance in accordance with the contract but their installation has been suspended by the project manager.
- 23.4. Additional expenses incurred in connection with such protective measures may be added to the total contract price, unless:
- a) otherwise provided for in the contract; or
  - b) such suspension is necessary by reason of some breach or default of the contractor; or
  - c) such suspension is necessary by reason of normal climatic conditions at the place of acceptance; or
  - d) such suspension is necessary for the safety or the proper execution of the contract or any part thereof insofar as such necessity does not arise from any act or default by the project manager or the contracting authority or
  - e) the presumed breach of obligations or irregularities or fraud mentioned in article 23.2 are confirmed and attributable to the contractor.
- 23.5. The contractor shall only be entitled to such additions to the total contract price if it notifies the project manager, within 30 days after receipt of the order to suspend the contract, of its intention to claim them.
- 23.6. The contracting authority, after consulting the contractor, shall determine such additions to the total contract price and/or extension of the period of performance to be granted to the contractor in respect of such claim as shall, in the opinion of the contracting authority, be fair and reasonable.
- 23.7. The contracting authority shall, as soon as possible, order the contractor to resume the contract suspended or inform the contractor that it terminates the contract. If the period of suspension exceeds 180 days and the suspension is not due to the contractor's breach or default, the contractor may, by notice to the contracting authority, request to proceed with the contract within 30 days, or terminate the contract.

## MATERIALS AND WORKMANSHIP

### Article 24 - Quality of supplies

24.1. The supplies must in all respects satisfy the technical specifications laid down in the contract and conform in all respects to the drawings, surveys, models, samples, patterns and other requirements in the contract, which shall be held at the disposal of the contracting authority or the project manager for the purposes of identification throughout the period of execution.

24.2. Any preliminary technical acceptance stipulated in the special conditions shall be the subject of a request sent by the contractor to the project manager. The request shall indicate the reference to the contract, specify the materials, items and samples submitted for such acceptance according to the contract and indicate the lot number and the place where acceptance is to take place, as appropriate. The materials, items and samples specified in the request must be certified by the project manager as meeting the requirements for such acceptance prior to their incorporation in the supplies.

24.3. Even if materials or items to be incorporated in the supplies or in the manufacture of components to be supplied have been technically accepted in this way, they may still be rejected if a further examination reveals defects or faults, in which case they must immediately be replaced by the contractor. The contractor may be given the opportunity to repair and make good materials and items which have been rejected, but such materials and items will be accepted for incorporation in the supplies only if they have been repaired and made good to the satisfaction of the project manager.

### Article 25 - Inspection and testing

25.1. The contractor shall ensure that the supplies are delivered to the place of acceptance in time to allow the project manager to proceed with acceptance of the supplies. The contractor is deemed to have fully appreciated the difficulties which it might encounter in this respect, and it shall not be permitted to advance any grounds for delay in fulfilling its obligations.

25.2. The project manager shall be entitled to inspect, examine measure and test the components, materials and workmanship, and check the progress of preparation, fabrication or manufacture of anything being prepared, fabricated or manufactured for delivery under the contract, in order to establish whether the components, materials and workmanship are of the requisite quality and quantity. This shall take place at the place of manufacture, fabrication, preparation or at the place of acceptance or at such other places as may be specified in the special conditions.

25.3. For the purposes of such tests and inspections, the contractor shall:

- a) provide the project manager, temporarily and free of charge, with such assistance, test samples or parts, machines, equipment, tools, labour, materials, drawings and production data as are normally required for inspection and testing;
- b) agree, with the project manager, on the time and place for tests;
- c) provide access to the project manager at all reasonable times to the place where the tests are to be carried out.

- 26.1. Payments shall be made in euro or national currency as specified in the special conditions. The special conditions shall lay down the administrative or technical conditions governing payments of pre-financing and final payments made in accordance with the general conditions.
- 26.2. Payments due by the contracting authority shall be made to the bank account mentioned on the financial identification form completed by the contractor. The same form, annexed to the invoice, must be used to report changes of bank account.
- 26.3. Pre-financing payment shall be made within 30 days from the date on which an admissible invoice is registered by the contracting authority. The invoice shall not be admissible if one or more essential requirements are not met. Final payment shall be made within 60 days from the date on which an invoice is registered by the contracting authority, together with the request for provisional acceptance as per article 31.2. The date of payment shall be the date on which the paying account is debited.
- 26.4. The period referred to in article 26.3 may be suspended by notifying the contractor that the invoice cannot be fulfilled because the sum is not due, because appropriate substantiating documents have not been provided or because there is evidence that the expenditure might not be eligible. In the latter case, an inspection may be carried out on the spot for the purpose of further checks. The contractor shall provide clarifications, modifications or further information within 30 days of being asked to do so. The payment period shall continue to run from the date on which a properly drawn-up invoice is registered.

## Article 26 - General principles

### PAYMENTS

- 25.4. If the project manager is not present on the date agreed for tests, the contractor may, unless otherwise instructed by the project manager, proceed with the tests, which shall be deemed to have been made in the project manager's presence. The contractor shall immediately send duly certified copies of the test results to the project manager, who shall, if it has not attended the test, be bound by the test results.
- 25.5. When components and materials have passed the above-mentioned tests, the project manager shall notify the contractor or endorse the contractor's certificate to that effect.
- 25.6. If the project manager and the contractor disagree on the test results, each shall give a statement of its views to the other within 15 days of such disagreement arising. The project manager or the contractor may require such tests to be repeated on the same terms and conditions or, if either party so requests, by an expert selected by common consent. All test reports shall be submitted to the project manager, who shall communicate the results of these tests without delay to the contractor. The results of retesting shall be conclusive. The cost of retesting shall be borne by the party whose views are proved wrong by the retesting.
- 25.7. In the performance of their duties, the project manager and any person authorised by him shall not disclose to unauthorised persons information concerning the undertakings' methods of manufacture and operation obtained through inspection and testing.

- 26.5. The payments shall be made as follows:
- a) 40% of the total contract price after the signing of the contract, against provision of the performance guarantee and of a pre-financing guarantee for the full amount of the pre-financing payment, unless otherwise provided for in the special conditions. The pre-financing guarantee shall be provided to the contracting authority following the procedure foreseen for the performance guarantee in accordance with Article 11.3-5, and in accordance with the format annexed to the contract. The pre-financing guarantee must remain valid until it is released 30 days at the latest after the provisional acceptance of the goods. Where the contractor is a public body, the obligation for a pre-financing guarantee may be waived depending on a risk assessment made;
  - b) 60% of the total contract price, as payment of the balance, after receipt by the contracting authority of an invoice and of the application for the certificate of provisional acceptance;
- 26.6. Where only part of the supplies has been delivered, the 60% payment due following partial provisional acceptance shall be calculated on the value of the supplies which have actually been accepted and the security shall be released accordingly.
- 26.7. For supplies not covered by a warranty period, the payments listed above shall be aggregated. The conditions to which the payments of pre-financing and final payments are subject, shall be as stated in the special conditions.
- 26.8. The payment obligations of the European Commission under this contract shall cease at most 18 months after the end of the period of implementation of the tasks, unless the contract is terminated in accordance with these general conditions.
- 26.9. Unless otherwise stipulated in the special conditions, the contract shall be at fixed prices, which shall not be revised.
- 26.10. The contractor undertakes to repay any amounts paid in excess of the final amount due to the contracting authority before the deadline indicated in the debit note which is 45 days from the issuing of that note. Should the contractor fail to make repayment within the above deadline, the contracting authority may (unless the contractor is a government department or public body of a Member State of the European Union) increase the amounts due by adding interest:
- at the rediscount rate applied by the central bank of the country of the contracting authority if payments are in the currency of that country;
  - at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, where payments are in euro,
- on the first day of the month in which the time-limit expired, plus eight percentage points. The default interest shall be incurred over the time which elapses between the date of the payment deadline, and the date on which payment is actually made. Any partial payments shall first cover the interest thus established.
- Amounts to be repaid to the contracting authority may be offset against amounts of any kind due to the contractor. This shall not affect the parties' right to agree on payment in instalments. Bank charges arising from the repayment of amounts due to the contracting authority shall be borne entirely by the contractor.

Without prejudice to the prerogative of the contracting authority, if necessary, the European Union may as donor proceed itself to the recovery by any means.

26.11. If the contract is terminated for any reason whatsoever, the guarantee securing the pre-financing may be invoked forthwith in order to repay the balance of the pre-financing still owed by the contractor, and the guarantor shall not delay payment or raise objection for any reason whatever.

26.12. Prior to, or instead of, terminating the contract as provided for in Article 36, the contracting authority may suspend payments as a precautionary measure without prior notice.

26.13. Where the award procedure or the performance of the contract proves to have been subject to breach of obligations, irregularities or fraud attributable to the contractor, the contracting authority may in addition to the possibility to suspend the performance of the contract in accordance with Article 23.2 and to terminate the contract as provided for in Article 36, suspend payments and/or recover amounts already paid, in proportion to the seriousness of the breach of obligations, irregularities or fraud. In addition to measures referred above, the contracting authority may reduce the contract value in proportion to the seriousness of the irregularities, fraud or of the breach of obligations, including where the activities concerned were not implemented or were implemented poorly, partially or late.

## Article 27 - Payment to third parties

27.1. Orders for payments to third parties may be carried out only after an assignment made in accordance with Article 5. The assignment shall be notified to the contracting authority.

27.2. Notification of beneficiaries of the assignment shall be the sole responsibility of the contractor.

27.3. In the event of a legally binding attachment of the property of the contractor affecting payments due to him under the contract, and without prejudice to the time limit laid down in Article 26, the contracting authority shall have 30 days, starting from the day on which it receives notification of the definitive lifting of the obstacle to payment, to resume payments to the contractor.

## Article 28 - Delayed payments

28.1. The contracting authority shall pay the contractor sums due in accordance with Article 26.3.

28.2. Once the time-limit referred to in Article 26.3 has expired, the contractor – unless the contractor is a government department or public body in European Union Member State – shall, within two months of receipt of the late payment, receive default interest:

- at the rediscount rate applied by the central bank of the partner country if payments are in the currency of that country ;

- at the rate applied by the European Central Bank to its main refinancing transactions in euro, as published in the Official Journal of the European Union, C series, if payments are in euro,

on the first day of the month in which the time-limit expired, plus eight percentage points. The interest shall be payable for the time elapsed between the expiry of the payment

30.1. The supplies shall not be accepted until the prescribed verifications and tests have been carried out at the expense of the contractor. The verifications and tests may be conducted before shipment, at the point of delivery and/or at the final destination of the goods.

### Article 30 - Verification operations

29.7. Delivery shall be deemed to have been made when there is written evidence available to both parties that delivery of the supplies has taken place in accordance with the terms of the contract, and the invoice(s) and all such other documentation specified in the special conditions, have been submitted to the contracting authority. Where the supplies are delivered to an establishment of the contracting authority, the latter shall bear the responsibility of bailee, in accordance with the requirements of the law applicable to the contract, during the time which elapses between delivery for storage and acceptance.

29.6. Each package shall be clearly marked in accordance with the special conditions.

29.5. Each delivery must be accompanied by a statement drawn up by the contractor. This statement shall be as specified in the special conditions.

29.4. No supplies shall be shipped or delivered to the place of acceptance until the contractor has received a delivery order from the project manager. The contractor shall be responsible for the delivery at the place of acceptance of all supplies and supplier's equipment required for the purpose of the contract.

29.3. The packaging, marking and documentation inside and outside the packages shall comply with such requirements as shall be expressly provided for in the special conditions, subject to any amendments subsequently ordered by the project manager or the contracting authority.

29.2. The contractor shall provide such packaging of supplies as is required to prevent their damage or deterioration in transit to their destination as indicated in the contract. The packaging shall be sufficient to withstand, without limitation, rough handling, exposure to extreme temperatures, salt and precipitation during transit and open storage. Package size and weight shall take into consideration, where appropriate, the remoteness of the final destination of the supplies, and the possible absence of heavy handling facilities at all points in transit.

29.1. The contractor shall deliver the supplies in accordance with the conditions of the contract. The supplies shall be at the risk of the contractor until their final acceptance.

### Article 29 - Delivery

## ACCEPTANCE AND MAINTENANCE

28.3. Any default in payment of more than 90 days from the expiry of the period laid down in Article 26.3 shall entitle the contractor either not to perform the contract or to terminate it, according to Article 37.

deadline and the date on which the contracting authority's account is debited. However, when the interest calculated in accordance with the first subparagraph is lower than or equal to EUR 200, it shall be paid to the creditor only upon a demand submitted within two months of receiving late payment.

The contracting authority's time limit for issuing the certificate of provisional acceptance to the contractor shall be considered included in the time limit for payments indicated in Article 26.3, unless otherwise specified in the special conditions.

— issue the certificate of provisional acceptance to the contractor with a copy to the contracting authority stating, where appropriate, his reservations, and, inter alia, the date on which, in his opinion, the supplies were completed in accordance with the contract and ready for provisional acceptance; or

— reject the application, giving his reasons and specifying the action which, in his opinion, is required of the contractor for the certificate to be issued.

31.2. The contractor may apply, by notice to the project manager, for a certificate of provisional acceptance when supplies are ready for provisional acceptance. The project manager shall within 30 days of receipt of the contractor's application either:

31.1. The supplies shall be taken over by the contracting authority when they have been delivered in accordance with the contract, have satisfactorily passed the required tests, or have been commissioned as the case may be, and a certificate of provisional acceptance has been issued or is deemed to have been issued.

### Article 31 - Provisional acceptance

30.5. The provisions of Article 30 shall not affect the right of the contracting authority to claim under Article 21, nor shall it in any way release the contractor from any warranty or other obligations under the contract.

30.4. Supplies which are not of the required quality shall be rejected. A special mark may be applied to the rejected supplies. This shall not be such as to alter them or affect their commercial value. Rejected supplies shall be removed by the contractor from the place of acceptance, if the project manager so requires, within a period which the project manager shall specify, failing which they shall be removed as of right at the expense and risk of the contractor. Any works incorporating rejected materials shall be rejected.

30.3. The contractor shall, with all speed and at its own expense, make good the defects so specified. If the contractor does not comply with such order, the contracting authority shall be entitled to employ other persons to carry out the orders and all expenses consequent thereon or incidental thereto shall be deducted by the contracting authority from any monies due or which may become due to the contractor.

d) that any work done or goods supplied or materials used by the contractor is or are not in accordance with the contract, or that the supplies or any portion thereof do not fulfil the requirements of the contract.

c) the removal and proper re-installation, notwithstanding any previous test thereof or of any installation which in respect of materials, workmanship or design for which the contractor is responsible, is not, in the opinion of the project manager, in accordance with the contract;

b) their replacement with proper and suitable supplies;

a) the removal from the place of acceptance, within such time or times as may be specified in the order, of any supplies which, in the opinion of the project manager, are not in accordance with the contract;

30.2. The project manager shall, during the progress of the delivery of the supplies and before the supplies are taken over, have the power to order or decide:

- 31.3. Should exceptional circumstances make it impossible to proceed with the acceptance of the supplies during the period fixed for provisional or final acceptance, a statement certifying such impossibility shall be drawn up by the project manager after consultation, where possible, with the contractor. The certificate of acceptance or rejection shall be drawn up within 30 days following the date on which such impossibility ceases to exist. The contractor shall not invoke these circumstances in order to avoid the obligation of presenting the supplies in a state suitable for acceptance.
- 31.4. If the project manager fails either to issue the certificate of provisional acceptance or to reject the supplies within the period of 30 days, it shall be deemed to have issued the certificate on the last day of that period, except where the certificate of provisional acceptance is deemed to constitute a certificate of final acceptance. In this case, Article 34.2 below does not apply. If the supplies are divided by the contract into lots, the contractor shall be entitled to apply for separate certificates for each of the lots.
- 31.5. In case of partial delivery, the contracting authority reserves the right to give partial provisional acceptance.
- 31.6. Upon provisional acceptance of the supplies, the contractor shall dismantle and remove temporary structures as well as materials no longer required for use in connection with the implementation of the contract. It shall also remove any litter or obstruction and redress any change in the condition of the place of acceptance as required by the contract.
- 31.7. Immediately after provisional acceptance, the contracting authority may make use of all the supplies delivered.
- Article 32 - Warranty obligations**
- 32.1. The contractor shall warrant that the supplies are new, unused, of the most recent models and incorporate all recent improvements in design and materials, unless otherwise provided in the contract. The contractor shall further warrant that all supplies shall have no defect arising from design, materials or workmanship, except insofar as the design or materials are required by the specifications, or from any act or omission, that may develop under use of the supplies in the conditions obtaining in the country of the contracting authority.
- 32.2. The contractor shall be responsible for making good any defect in, or damage to, any part of the supplies which may appear or occur during the warranty period and which:
- a) results from the use of defective materials, faulty workmanship or design of the contractor; and/or
  - b) results from any act or omission of the contractor during the warranty period; and/or
  - c) appears in the course of an inspection made by, or on behalf of, the contracting authority.
- 32.3. The contractor shall at its own cost make good the defect or damage as soon as practicable. The warranty period for all items replaced or repaired shall recommence from the date when the replacement or repair was made to the satisfaction of the project manager. If the contract provides for partial acceptance, the warranty period shall be extended only for the part of the supplies affected by the replacement or repair.
- 32.4. If any such defect appears or such damage occurs during the warranty period, the contracting authority or the project manager shall notify the contractor. If the contractor

fails to remedy a defect or damage within the time limit stipulated in the notification, the contracting authority may:

#### Article 38 - Force majeure

38.1. Neither party shall be considered to be in default or in breach of its obligations under the contract if the performance of such obligations is prevented by any circumstances of *force majeure* which arises after the date of notification of award or the date when the contract becomes effective

38.2. 38.3. Notwithstanding the provisions of Articles 21 and 36, the contractor shall not be liable to forfeiture of its performance guarantee, liquidated damages or termination for default if, and to the extent that, its delay in performance or other failure to perform its obligations under the contract is the result of an event of *force majeure*. 38.4. If either party considers that any circumstances of *force majeure* have occurred which may affect performance of its obligations, it shall promptly notify the other party and the project manager, giving details of the nature, the probable duration and the likely effect of the circumstances. Unless otherwise directed by the project manager in writing, the contractor shall continue to perform its obligations under the contract as far as is reasonably practicable, and shall seek all reasonable alternative means for performance of its obligations which are not prevented by the *force majeure* event. The contractor shall not put into effect alternative means unless directed so to do by the project manager.

38.5. If the contractor incurs additional costs in complying with the project manager's directions or using alternative means under Article 38.4, the amount thereof shall be certified by the project manager.

38.6. If circumstances of *force majeure* have occurred and continue for a period of 180 days then, notwithstanding any extension of time for completion of the contract that the contractor may by reason thereof have been granted, either party shall be entitled to serve upon the other with 30 days' notice to terminate the contract. If, at the expiry of the period of 30 days, the situation of *force majeure* persists, the contract shall be terminated and, in consequence thereof under the law governing the contract, the parties shall be released from further performance of the contract.

#### Article 39 - Decease

39.1. Where the contractor is a natural person, the contract shall be automatically terminated if that person dies. However, the contracting authority shall examine any proposal made by the heirs or beneficiaries if they have notified their wish to continue the contract.

If the European Commission is not a party to the contract, it may accept to intervene as conciliator. The other party shall respond to the request for conciliation within 30 days. Unless the parties agree otherwise, the maximum time period laid down for reaching a settlement through conciliation shall be 120 days from the notification requesting such a procedure. Should a party not agree to the other party's request for conciliation, should a party not respond in time to that request or should no settlement be reached within the maximum time period, the conciliation procedure is considered to have failed.

40.2. Once a dispute has arisen, a party shall notify the other party of the dispute, stating its position on the dispute and any solution which it envisages, and requesting an amicable settlement. The other party shall respond to this request for amicable settlement within 30 days, stating its position on the dispute. Unless the parties agree otherwise, the maximum time period laid down for reaching an amicable settlement shall be 120 days from the date of the notification requesting such a procedure. Should a party not agree to the other party's request for amicable settlement, should a party not respond in time to that request or should no amicable settlement be reached within the maximum time period, the amicable settlement procedure is considered to have failed.

40.1. The parties shall make every effort to settle amicably any dispute relating to the contract which may arise between them.

#### Article 40 - Settlement of disputes

### SETTLEMENT OF DISPUTES AND APPLICABLE LAW

39.4. Such persons shall be jointly and severally liable for the proper performance of the contract to the same extent as the deceased contractor. Continuation of the contract shall be subject to the rules relating to establishment of any guarantee provided for in the contract.

The decision of the contracting authority shall be notified to those concerned within 30 days of receipt of such proposal.

39.2. Where the contractor consists of a number of natural persons and one or more of them die, a report shall be agreed between the parties on the progress of the contract, and the contracting authority shall decide whether to terminate or continue the contract in accordance with the undertaking given by the survivors and by the heirs or beneficiaries, as the case may be.

(d) professional equipment necessary for carrying out tasks defined in a service contract shall be temporarily admitted into the beneficiary ACP State in accordance with its national legislation free of fiscal, import and customs duties and of other charges having equivalent effect where these duties and charges do not constitute remuneration for services rendered;

(e) imports under supply contracts shall be admitted into the beneficiary ACP State without customs duties, import duties, taxes or fiscal charges having equivalent effect. The contract for supplies originating in the ACP State concerned shall be concluded on the basis of the ex-works price of the supplies to which may be added such internal fiscal charges as may be applicable to those supplies in the ACP State;

3.2. For the purposes of calculating a period of time under these rules, such period shall begin to run on the day following the day when a notice, communication or proposal, is received. If the last day of such period is an official holiday or a non-working day, at the address mentioned in the notice, communication or proposal, the period shall be extended until the first working day which follows. However, official holidays or non-working days occurring during the running of the period of time shall be included in calculating the period.

Article 4

4.1. A dispute shall not be referred to arbitration under these rules unless all internal administrative procedures provided by the ACP State for settlement of such disputes have been or are deemed to have been exhausted. Recourse to administrative proceedings shall be deemed to have been exhausted if no final decision has been issued by the administrative agency within 120 days of the receipt of the initial application for settlement by it.

4.2. In cases where recourse to administrative procedures by an applicant is, due to the absence of such procedures in the ACP State, not possible, a dispute may be referred to arbitration under these rules only after the applicant has given notice of this complaint to the other party, and no meaningful steps have been taken by that other party to remedy or correct the cause of complaint within 120 days after the receipt of the notice.

(d) an arbitrator dies during the course of the arbitration proceedings; or

(e) for any other reason, an arbitrator fails to act or it becomes impossible *de jure* or *de facto* for him to perform his functions.

12.2. If an arbitrator is replaced, any hearing held previously may, at the discretion of the tribunal, be repeated, and any decision or order made in the course of the proceedings may be set aside by the tribunal.

III. — THE ARBITRATION PROCEEDINGS

Article 13

General provisions

13.1. Subject to these rules, the tribunal may conduct the arbitration in such manner as it considers appropriate.

13.2. The tribunal shall conduct the arbitration as expeditiously and with such due regard for the saving of costs as is consistent with doing justice between the parties. The parties shall be treated with equality, and at any stage of the proceedings each of them shall be given a full opportunity of presenting his case.

13.3. If either party so requests at any stage of the proceedings, the tribunal shall hold hearings for presentation of evidence by witnesses, including others;

suitable arbitrator, having due regard to the interest of the parties, the nature of the dispute and, where applicable, the fact that one of the parties is a State.

Article 11

Challenge of arbitrators

11.1. A prospective arbitrator shall disclose to those who approach him in connection with his possible appointment any facts or circumstances likely to give rise to justifiable doubts or suspicion as to his impartiality or independence. A person appointed arbitrator shall disclose such facts or circumstances to the parties unless they have already been informed by him of these circumstances.

11.2. Any arbitrator may be challenged by a party if facts or circumstances exist which give rise to justifiable doubts or suspicion as to his impartiality or competence. However a party may challenge an arbitrator appointed by him, or in whose appointment he has participated, only for reasons of which he becomes aware after the appointment has been made.

11.3. A party who intends to challenge an arbitrator shall send a notice of his challenge in writing, stating the reasons therefor to the tribunal, the challenged arbitrator and the other party. The notice shall be sent within 15 days of the constitution of the tribunal or of the appointment of the challenged arbitrator, whichever is later, or within 15 days after the circumstances justifying the challenge become known to the party making the challenge.

11.4. Where a challenge made by one party is agreed by the other party, or where the challenged arbitrator withdraws from office, the authority of that arbitrator in the arbitration proceedings shall forthwith terminate. But neither the agreement of the parties to the challenge, nor the withdrawal from office of the challenged arbitrator, implies an acceptance of the validity of the grounds of the challenge issued.

11.5. If the other party does not agree to the challenge, or if the challenged arbitrator does not withdraw, a decision on the challenge shall be made as follows:

(a) where the appointment of the arbitrator was made by an appointing authority, by that authority;

(b) where the appointment of the arbitrator was not made by an appointing authority, by the other members of the tribunal, if there are such others;

expert witnesses, or for oral argument. In the absence of such a request, the tribunal shall decide whether to hold such hearings or whether the proceedings shall be conducted on the basis of documents and other materials.

13.4. All documents or information supplied to the tribunal by one party shall at the same time be communicated by that party to the other party. No such document or information may be used in support of a party's case unless there is proof that it has been communicated to the other party.

Applicable law and procedural rules

Article 14

14.1. The tribunal shall apply the law of the State of the contracting authority to the matters in dispute, unless otherwise specified in the contract, in which case the tribunal shall apply the law so specified. In all cases, the tribunal shall decide in accordance with the terms of the contract, and may take into account the usages of the trade applicable to the transaction.

14.2. Where the applicable law is silent on any specific point, the tribunal shall apply the conflict of laws rules resulting from the law applicable to the contract. The tribunal may not decline to make an award on the ground that the law is silent or obscure on the point.

14.3. Notwithstanding the provisions of Articles 5.1 and 14.1, if the parties expressly so authorize the tribunal in the course of the arbitration proceedings, it shall decide as amicable compositor or *ex aequo et bono*.

14.4. The entire arbitration proceedings shall be conducted in accordance with these rules. In the absence of agreement between the parties, any procedural matter which is not provided for in these rules shall be decided by the tribunal, which shall ensure in particular, in such a case, that the principle of equality between the parties is observed.

Language of the proceedings

Article 15

15.1. Arbitration proceedings shall be conducted and the arbitration award made in the language of the contract, the terms or execution of which gave rise to the dispute.

15.2. The tribunal may order that any documents annexed to the statement of claim or statement of defence,

and any other document or exhibit submitted in the course of the proceedings, and which are not drawn up in the language of the proceedings, shall be accompanied by a certified translation into the language of the proceedings.

Venue of the proceedings

Article 16

16.1. Arbitration proceedings shall be conducted in the ACP State in which the contract was awarded or performed. However, the tribunal may, with the agreement of the parties and for good cause, decide to conduct the arbitration in some other place. In deciding on such other place, the tribunal shall have regard to the circumstances of the case, including the costs involved, the convenience of the parties, and the potential adverse effect of the procedural rules of an alternative venue on the parties and the proceedings.

16.2. Subject to Article 16.1, the tribunal may hold some hearings and meetings at any place it deems appropriate, having regard to the circumstances of the case.

16.3. The tribunal may meet at any place it deems appropriate for the inspection of the works, goods, other property or documents. The parties shall be given sufficient notice to enable them to be present at such inspection.

Representation and assistance

Article 17

The parties may be represented and/or assisted by persons of their choice. The names and addresses of such persons must be communicated in writing to the other party and to the tribunal. Such communication must specify whether the person named is appointed for the purpose of representation or assistance.

Commencement of arbitration proceedings

Article 18

18.1. The claimant in an arbitration shall give to the respondent a notice of arbitration. Such notice shall be time-barred unless it is given not later than 90 days after the receipt of the decision closing the final administrative proceedings taken in the ACP State, or, where no such administrative procedures are available, not later than 90 days after the expiry of the 120 days provided for in Article 4.2 for the remedy of a complaint notified to the other party.

18.2. Arbitration proceedings shall be deemed to commence on the date on which the notice of arbitration is received by the respondent.

18.3. The notice of arbitration shall include the following:

(a) a demand that the dispute be referred to arbitration;

(b) the names and addresses of the parties and their nationality at the time of the notice;

(c) a reference to the contract out of or in relation to which the dispute arises, and the particular clause or clauses in the contract being invoked or challenged;

(d) the general nature of the claim and the amount involved, if any;

(e) the relief or remedy sought;

(f) a brief statement, with dates, of any administrative proceedings or of the notice given of complaints, and the outcome of such steps;

(g) a proposal as to the number of arbitrators (i. e., one or three).

18.4. The notice of arbitration may also include:

(a) the name of the person and/or the authority proposed for appointment as a sole arbitrator and/or appointing authority referred to in Article 8.1;

(b) the notification of the appointment by the claimant of an arbitrator referred to in Article 9.1;

(c) the statement of claim referred to in Article 19.

Statement of claim

Article 19

19.1. Unless the statement of claim was contained in the notice of arbitration, within a time limit to be determined by the tribunal, the claimant shall communicate his statement of claim in writing to the respondent and to each of the arbitrators. A copy of the contract shall be annexed thereto.

19.2. The statement of claim, signed and dated by the claimant and/or his duly authorized representative, shall include the following particulars:

(a) the names and addresses of the parties;

(b) a statement of the facts supporting the claim;

The claimant shall either annex to his statement of claim all documents he deems relevant or add a reference to the documents or other evidence he will submit.

(d) the relief or remedy sought.

(c) the points at issue;

Statement of defence

Article 20

20.1. Within a time limit to be determined by the tribunal, the respondent shall communicate his statement of defence in writing to the claimant and to each of the arbitrators.

20.2. The statement of defence shall reply to the particulars of the statement of claim given in compliance with Article 19.2 (b), (c) and (d). The respondent shall either annex to his statement the documents on which he relies for his defence or add a reference to the documents or other evidence he will submit.

20.3. In his statement of defence, or at a later stage in the arbitration proceedings, if the tribunal decides that the delay was justified under the circumstances, the respondent may make a counter-claim arising out of the same contract, or rely on a claim arising out of the same contract for the purpose of a set-off.

20.4. The provisions of Article 19.2 shall apply to a counter-claim and a claim relied on for the purpose of a set-off.

Amendments to the claim or defence

Article 21

During the course of the arbitration proceedings either party may amend or supplement his claim or defence unless the tribunal considers it inappropriate to allow such amendment having regard to the delay in making it or the undue harm that it would cause to the other party.

Pleas to the jurisdiction of the tribunal

Article 22

22.1. The tribunal shall have the power to rule on objections to its jurisdiction.

22.2. The tribunal shall have the power to determine the existence or the validity of the contract. A decision by the tribunal that the contract is null and void shall not affect the validity of the arbitration clause in the contract or the agreement to submit the dispute to arbitration, and therefore, shall not affect the application of these rules.

22.3. A plea that the tribunal does not have jurisdiction shall be raised not later than in the statement of defence or with respect to a counter-claim, in the reply to the counter-claim. This provision shall also apply to new claims and counter-claims admitted in the course of the proceedings.

22.4. In general, the tribunal should rule on a plea concerning its jurisdiction as a preliminary question. However, the tribunal may proceed with the arbitration and then rule on such a plea in its final award.

Further written statements

Article 23

The tribunal shall decide which further written statements, in addition to the statement of claim and the statement of defence, shall be required from the parties or may be presented by them and, if so, the manner in which they shall be presented, and shall fix the time limits for communicating such statements.

Article 24

Time limits

The time limits fixed by the tribunal for the communication of written statements (including the statement of claim and statement of defence) shall not, in each case, exceed 45 days. However, the tribunal may extend the time limits if it concludes that an extension is justified.

Article 25

Evidence

25.1. Each party shall bear the burden of proving the fact relied on to support his claim or defence.

25.2. The tribunal may, if it considers it appropriate, require the parties to deliver to the tribunal and to the other party, within such time limit as the tribunal shall decide, a summary of the documents and other evidence which that party offers to present in support of the facts in issue set out in his statement of claim or statement of defence.  
25.3. At any time during the proceedings, the tribunal may require the parties to produce documents, exhibits or other evidence within such time limit as the tribunal shall determine.

Oral proceedings

Article 26

26.1. In the event of an oral hearing, the tribunal shall give the parties adequate advance notice of the date, time and place thereof.

26.2. If witnesses are to be heard, each party shall communicate to the tribunal and to the other party, at least 15 days before the hearing, the names and addresses of the witnesses he intends to call, the subjects upon and the languages in which such witnesses will give their testimony.

26.3. The tribunal shall make arrangements for the translation of oral statements made at a hearing and for a record of the hearing if either is deemed necessary by the tribunal under the circumstances of the case, or if the parties have agreed thereto and have communicated such agreement to the tribunal at least 15 days before the hearing.

26.4. Hearings shall be held in camera unless the parties agree otherwise. The tribunal may require the retirement of any witness or witnesses during the examination of other witnesses. The tribunal is free to determine the manner in which witnesses are examined, without prejudice to the right of each party, at its request, to question witnesses presented by the other party.

26.5. Evidence of witnesses may also be presented in the form of sworn written statements signed by them. However, at the request of either party and with the leave of the tribunal, such witnesses may be heard at a hearing where the parties shall have the opportunity to be present and to question the witnesses.  
26.6. The tribunal shall determine the admissibility, relevance, materiality and weight of the evidence offered.

Article 27

27.1. At the request of either party, the tribunal may take any interim measures it deems necessary in respect of the subject matter of the dispute, including measures for the conservation, preservation or safe-custody of the goods forming the subject matter in dispute, such as ordering their deposit with a third person or the sale of perishable goods. The tribunal may also order the deposit of a sum of money or the provision of a security to guarantee the whole or any part of the amounts in dispute. In the event of failure to do so, the tribunal shall be entitled to draw such conclusions as may logically be imputed to such failure.

27.2. Such interim measures may be established in the form of an interim award. The tribunal shall be entitled to require security for the costs of such measures.

cause for such failure, the tribunal may proceed with the arbitration.

29.3. If one of the parties, duly invited to produce documentary evidence, fails to do so within the established time limit, without showing sufficient cause for such failure, the tribunal may make the award on the evidence before it, taking due account of the failure and the bearing it has on the case.

Article 30

Closure of hearings

30.1. The tribunal may inquire of the parties if they have any further evidence to offer or witnesses to be heard or submissions to make and, if there are none, it may declare the hearing closed.

30.2. The tribunal may, if it considers it necessary owing to exceptional circumstances, decide, on its own motion or upon application of a party, to reopen the hearings at any time before the award is made.

Article 31

Waiver of rules

A party who refrains from promptly raising an objection to any noncompliance with the provisions of or requirements under these rules shall be deemed to have waived his right to object.

IV — THE AWARD

Article 32

Decision

32.1. When there are three arbitrators, an award or other decision of the tribunal shall be made by a majority of the arbitrators. However, if there is no majority, the presiding arbitrator shall have a casting vote, but shall give reasons for exercising that vote.

32.2. In the case of questions of procedure, when there is no majority or when the tribunal so authorizes, the presiding arbitrator may decide on his own, subject to review, if any, by the tribunal.

Article 28

Experts

28.1. The tribunal may appoint one or more independent experts to examine and report to it, in writing on specific issues to be determined by the tribunal. A party shall have the right to object to an expert on the ground of competence and partiality and if such objection is sustained by the tribunal that expert shall withdraw. A copy of the expert's terms of reference, established by the tribunal, shall be communicated to the parties.

28.2. The parties shall give the expert any relevant information or produce for his inspection any relevant documents or goods that he may require of them. Any dispute between a party and such expert as to the relevance of the required information or production shall be referred to the tribunal for decision.

28.3. Upon receipt of the expert's report, the tribunal shall communicate a copy of the report to the parties who shall be given the opportunity to express, in writing, their opinion on the report. A party shall be entitled to examine any document on which the expert has relied in his report.

28.4. At the request of either party, the expert, after delivery of the report, may be heard at a hearing where the parties shall have the opportunity to be present and to question him. At this hearing either party may call expert witnesses in order to testify on the points at issue. The provisions of Article 26 shall apply to such proceedings.

Article 29

Default

29.1. If, within the time limit fixed by the tribunal, the claimant has failed to communicate his statement of claim without showing sufficient cause for such failure, the tribunal shall issue an order for the termination of the proceedings. If, within the time limit fixed by the tribunal, the respondent has failed to communicate his statement of defence without showing sufficient cause for such failure, the tribunal shall, after allowing for the particular constraints applying to the respondent, order that the proceedings continue and may make an award even if a defence has by then not been submitted.

29.2. If one of the parties, duly notified under these rules, fails to appear at a hearing, without showing sufficient

Article 33

of Ministers will transmit such information to the Secretary General of the ACP General Secretariat and to the President of the Commission without delay.

Time, scope, form and effect of the award

33.1. The arbitration award shall be made as soon as possible after the hearing or receipt of evidence of the material which the parties wish to put before the tribunal.

33.2. In addition to making a final award, the tribunal shall be entitled to make interim, interlocutory, or partial awards.

33.3. The award shall be made in writing and shall be final and binding on the parties. The parties shall carry out the award without delay. Each ACP State or Member State shall recognize as binding every award made pursuant to these rules and shall ensure that it is enforced in its territory, as if it were a final judgment of one of its own courts or tribunals.

33.4. The tribunal shall state the reasons upon which the award is based, unless the parties have agreed that no reasons are to be given.

33.5. An award shall be signed and duly certified by the arbitrators and it shall contain the date on which and the place where the award was made. Where there are three arbitrators and one of them fails to sign, the award shall state the reason for the absence of the signature.

33.6. The award may be made public only with the consent of both parties.

33.7. Copies of the award signed and certified by the arbitrators shall be communicated to the parties by the tribunal.

Enforcement of the award

34.1. In order to obtain the recognition and enforcement of the award in the territory of a signatory State of the Convention, the party concerned must present a certified copy of the award to the authority which that State has designated for the purpose. The order for enforcement shall be appended to the presented copy without any verification other than that of the authenticity of the copy.

34.2. Each signatory State shall, within 180 days from the entry into force of these rules, inform the President of the Council of Ministers of the authority which it has designated for this purpose and shall keep him informed of any changes. The President of the Council

Article 34

shall apply.

35.3. Copies of the order for termination of the proceedings or of the award on the agreed terms, signed by the arbitrators, shall be communicated by the tribunal to the parties. Where an award on the agreed terms is made, the provisions of Articles 33.3 and 33.5 to 33.7

35.2. If, before the award is made, the continuation of the proceedings becomes unnecessary or impossible for any reason other than settlement under Article 35.1, the tribunal shall inform the parties that unless any objection is received within 30 days, it will issue an order terminating the proceedings. Should either party object within the said 30 days, the tribunal shall not issue such an order until it has heard the parties and determined that there are no justifiable grounds for objection.

35.1. If, before the award is made, the parties agree on a settlement of the dispute by other means, the tribunal shall either issue an order for the termination of the proceedings or, if requested by both parties and accepted by the tribunal, record the settlement in the form of an award on the agreed terms. The tribunal is not obliged to give reasons for such an award.

Settlement or other grounds for termination

Article 35

34.3. The enforcement of the award shall be regulated by the law relating to the enforcement of judgments which is in force in the State in whose territory the enforcement is to be carried out.

Interpretation of the award

36.1. Within 60 days after the receipt of the award, either party, with notice to the other party, may request that the tribunal give an interpretation of the award. Where a new issue is discovered after the time limit provided has expired, the 60 days shall run from the date the new issue is discovered, provided that the maximum time limit for a request based on the discovery of a new issue shall not exceed 120 days from the date of the award.

36.2. The interpretation shall be given in writing as soon as possible after the receipt of the request. The interpretation shall form part of the award and the provisions of Article 33.2 to 33.6 shall apply.

Article 37

Correction of the award

37.1. Within 60 days after the receipt of the award, either party, with notice to the other party, may request the tribunal to correct in the award any errors in computation, any clerical or typographical errors, or any errors of a similar nature. The tribunal may within 30 days after the communication of the award make such corrections on its own initiative.

37.2. Such corrections shall be in writing, and the provisions of Article 33.2 to 33.6 shall apply.

Article 38

Additional award

38.1. Within 60 days after the receipt of the award, either party, with notice to the other party, may request the tribunal to make an additional award as to claims presented in the proceedings but omitted from the awards.

38.2. If the tribunal considers the request for an additional award to be justified and considers that the omission can be rectified without any further hearings or evidence, it shall complete its award within 60 days after the receipt of the request.

38.3. When the additional award is made, the provisions of Article 33.2 to 33.6 shall apply.

Article 39

Fees

39.1. The fees of the tribunal shall be reasonable in amount, taking into account the complexity of the subject matter, the time spent by the arbitrators and any other relevant circumstances of the case.

39.2. If an appointing authority has been agreed upon by the parties or designated by these rules, and if that authority has issued a schedule of fees for arbitrators in international cases which it administers, the tribunal in fixing its fees shall take that schedule of fees into account to the extent that it considers appropriate in the circumstances of the case.

39.3. If such appointing authority has not issued a schedule of fees for arbitrators in international cases, any party fixing its costs request the appointing authority to furnish a statement setting forth the basis for establishing fees which is customarily followed in international cases in which the authority appoints arbitrators. If the appointing authority consents to provide such a statement, the tribunal in fixing its fees shall take such information into account to the extent that it considers appropriate in the circumstances of the case.

39.4. In the cases referred to in Articles 39.2 and 39.3, when a party so requests and the appointing authority consents to draw up a proposal for fees, the tribunal shall fix its fees only after consultation with the appointing authority which may make any comment it deems appropriate to the tribunal concerning the fees.

Article 40

Costs

40.1. The tribunal shall fix the costs of arbitration in its award. The term 'costs' includes only:

(a) the fees of the tribunal to be stated separately as to each arbitrator and to be fixed by the tribunal itself in accordance with Article 39;

(b) the travel and other expenses incurred by the arbitrators;

(c) the costs of expert advice and of other assistance required by the tribunal;

(d) the travel and other expenses of witnesses to the extent such expenses are approved by the tribunal;

(e) the costs for legal representation and assistance of the successful party if such costs were claimed during the proceedings, and only to the extent that the tribunal determines that the amount of such costs is reasonable;

(f) any fees and expenses of the appointing authority.

40.2. Except as provided in Article 40.3, the costs of arbitration shall in principle be borne by the unsuccessful party. However, the tribunal may apportion each of such costs between the parties if it determines that apportionment is reasonable, taking into account the circumstances of the case.

40.3. With respect to the costs of legal representation and assistance referred to in Article 40.1 (e), the tribunal,

41.2. During the course of the arbitration proceedings, the tribunal may request supplementary deposits from the parties for valid reasons.

41.3. If an appointing authority has been agreed upon by the parties or designated by these rules, and when a party so requests and the appointing authority consents to perform the function, the tribunal shall fix the amounts of any deposits or supplementary deposits only after consultation with the appointing authority which may make comments to the tribunal which it deems appropriate concerning the amount of such deposits and supplementary deposits.

41.4. If the required deposits are not paid in full within 30 days after receipt of the request, the tribunal shall inform the parties in order that one or other of them may make the required payment. If such payment is not made, the tribunal may nevertheless decide to continue with, or order the suspension or termination of, the proceedings.

41.5. After the award has been made, the tribunal shall render an account to the parties of the deposits received and return any unexpended balance to the parties.

taking into account the circumstances of the case, shall be free to determine which party shall bear such costs or may apportion such costs between the parties if it determines that apportionment is reasonable.

40.4. When the tribunal issues an order for the termination of the proceedings or makes an award on the agreed terms, it shall fix the costs of arbitration referred to in Article 40.1 in the text of that order of award.

40.5. No additional fees may be charged by a tribunal for interpretation or correction or completion of its award under Articles 36 to 38.

Article 41

Deposit of costs

41.1. The tribunal, on its establishment, may request each party to deposit an equal amount as an advance for the costs referred to in Article 40.1 (a), (b) and (c).

**D. TENDER FORM FOR A SUPPLY CONTRACT**

Publication reference: **FED/2018/397425/SUP004**

**Title of contract: Invitation to Tender for the Supply of Specialised Trucks; Refrigerated Truck (Lot 1), and Live Animal Truck (Lot 2) to the Ministry of Agriculture, Animal Industry and Fisheries for Support to Developing a Market-Oriented and Environmentally Sustainable Beef Meat Industry in Uganda Entebbe, Uganda**

**A: Permanent Secretary, Ministry of Agriculture, Animal Industry and Fisheries (MAAIF), Plot 16-18 Lugard Avenue, PO Box 102, Entebbe, Uganda**

**One signed form** must be supplied (for each lot, if the tender procedure is divided into lots), together with the number of copies specified in the instructions to tenderers. The form must include a signed declaration using the annexed format from each legal entity making the application. Any additional documentation (brochure, letter, etc.) sent with the form will not be taken into consideration. Applications being submitted by a consortium (i.e. either a permanent, legally-established grouping or a grouping which has been constituted informally for a specific tender procedure) must follow the instructions applicable to the consortium leader and its members. The attachments to this submission form (i.e. declarations, statements, proofs) may be in original or copy. If copies are submitted, the originals must be dispatched to the contracting authority upon request. For economical and ecological reasons, we strongly recommend that you submit your files on paper-based materials (no plastic folder or divider). We also suggest you use double-sided print-outs as much as possible.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator, as well as the relevant selection criteria. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will supply the supplies or perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.
