

AGRIBUSINESS MATCHMAKING EXPO ACTIVITY REPORT

Hon. Vincent B. Ssempijja, Minister of Agriculture, Animal Industries and Fisheries inspecting exhibition stalls during the expo

Venue: Mandela National Stadium Namboole, Wakiso District

November 18, 2019

Prepared for

Project Coordinator,
Agriculture Cluster Development Project

Prepared by
Christopher Gumisiriza
Grants Manager

1. BACKGROUND

1.0 Background

The Government of Uganda, through the Ministry of Agriculture, Animal Industry and Fisheries (MAAIF) received financing from the World Bank for implementation of the Agriculture Cluster Development (ACDP) Project. The Project, which became effective on January 23, 2017, is aimed at raising on-farm productivity, production, and marketable volumes of selected agricultural commodities in specified clusters. The project has four components that include: (i) Support for Intensification of On-Farm Production; (ii) Value Addition and Market Access; (iii) Policy, Regulatory and Institutional Support; and (iv) Coordination and Management, and ICT Platform. The project promotes five selected commodities, beans, rice, maize, cassava and coffee). The Ministry of Agriculture, Animal Industry and Fisheries (MAAIF), in collaboration with the World Bank Group, hosted an Agribusiness Matchmaking Expo event on 18th November 2019, at Mandela National Stadium Nambole.

The Expo was planned to support ACDP activities under Subcomponent 2.2 (ACCE-level Warehousing, Value addition, and Marketing). One of the focus of the project is to support investments by POs in organizational and community-levels post-harvest handling and management (PHM), which includes handling, grading, bulking and storage; and processing for value addition. The mechanism for this support is a matching grant financing 67% (and 33% by farmer organizations) of the cost of the purchase of tools, equipment, machinery and services needed to scale up and improve the effectiveness with which the POs are able to carry out these functions including the construction of community primary storage facilities. One hundred and twenty three (123) FOs were recommended for the grant award by Grants Management Committee and also approved by Ministry. The 123 business plans that have been recommended for award have provided list of investments which include: processing machines (coffee & rice hullers, millers, bean sorters, coffee roasters, threshers, cassava chippers, cassava compressors, solar & multi-grain biomass dryers among others); shelter for machinery, storage facilities, Energy (generators, electricity connection and installation), accessories (computers, moisture meters, weighing scales, thematic bags, tarpaulins, packaging materials, aflatoxin kits); transport facilities (trucks, tricycle/motorcycles) and training and capacity building for effective management of the business investments. However, the project team is aware of the challenges faced by the beneficiary organizations including the limited abilities to negotiate and engage suppliers for quality and affordable equipment and machinery, limited knowledge in regard to specifications of facilities and equipment they want, weak group and management systems and limited ability to sustainably manage and maintain the facilities inter alia. However, there is limited information among the FO members on the sources and specifications of these facilities and equipment. The FOs are scattered, have small isolated needs and have limited knowledge about what is available on the market. On the other hand, the suppliers and/or service providers that could meet the farmers' needs have limited knowledge of the specific locations and needs of the Producer organizations.

The Expo brought together all five (05) representatives of Farmer Organisations (FOs), District technical staff, MAAIF Staff, World Bank Staff, media and all vetted service providers to share information on available facilities and equipment including their capacities in the market (for the FOs) and effective demand for the various facilities and equipment as exhibited by the successful FOs for matching grants under ACDP (for Service Providers). This expo was planned to help address some of the constraints faced by FOs related to the size of the operations. These include the inability to create scale economies; low bargaining power because of low quantities; limited access to credible service providers; limited knowledge; and information about quality goods, market imperfections, and poor communications.

1.2 Objectives

The main objective of the Matchmaking expo was to bring together producer organizations and manufacturer/suppliers of postharvest, value addition and processing facilities and equipment.

Specific objectives

- i. To reduce transaction costs¹ of procuring of goods and services
- ii. To bring FOs in direct contact with the vetted service providers and enable them make informed decision making² in the acquisition of goods and services
- iii. To build sustainable business linkages between FOs and the suppliers of equipment

2.0 Approach and Method of Delivery

2.1 Selection of Participants

The main participants in the expo were representatives from Farmer Organizations and selected suppliers of Agricultural Equipment. The invited participants from each FO included Chairperson, General Secretary, Treasurer, Chairperson Procurement Committee and Treasurer). This categorization was reached on because of the nature of the assignment they were supposed to perform during the expo. It was envisaged that with such representation during the expo, they would be able to select service providers without going back to their groups. The suppliers of equipment were solicited through an open advertisement in the media on October 07, 2019 in which all interested firms were invited to express their interest in participation in the expo. In addition to this method, we extended our invitation to Uganda Manufacturers Association (UMA), Uganda Small scale Association (USSIA) and those that supplied agencies similar agencies like FAO. In total, 38 companies were invited to participate in the Expo and only 28 turned up for the expo.

Second category of participants were district technical teams that accompanied the FO representatives to guide them on what equipment to select and also witnessing the compilation

¹ Individual adverts by the farmer organizations, time into market surveys etc.

² Provides a basis for cost adjustments to near accurate market prices

of final list of investments. This category included District Production and Marketing Officers, District Agricultural Officers, District Agricultural Engineer and District Commercial Officers.

The third category were staff from Enterprise Uganda who were charged with responsibilities of reviewing 123 Business Plans so as to come up with final list of costed investments. Each cluster was allocated Business Counsellors to guide the exercise.

The event was equally graced by high level staff from World Bank, MAAIF, Members of National Project Steering Committee, media and other international agencies active in the sector.

2.2 Quality Assurance

Quality assurance was ensured through the following processes:

- Prior to the Expo, A memorandum of Understanding was signed between Enterprise Uganda and MAAIF to build and strengthen capacity of matching grant beneficiaries to negotiate contracts with suppliers and sustainably manage their post-harvest and value addition investments. This was done through trainings of members, their leaders and also hand handling their leaders during the expo to develop the realistic costed investment plans.
- The FOs that did not complete their business plans during the expo, they were advised to go and consult their members and resubmit final plans by November 30, 2019.
- Pre-Event meeting/Debrief. On Friday November 15, 2019, we held a brief meeting with selected suppliers to give them information on the list of requested items by 123 FOs and mode of engagement during the expo. A day prior the Expo, a debrief meeting was held with Enterprise Uganda Staff, FO representatives, District Technical Staff to ensure harmony and distribute roles amongst the team. Emerging issues related to Business Plans were addressed to ensure the planned expo's objectives were fulfilled.

3. Activities carried out during the Expo

3.1 Composition of Participants

| <i>AGRIBUSINESS MATCH MAKING EXPO PARTICIPATION BY GENDER</i> | | | |
|--|-------------|---------------|--------------|
| Category | Male | Female | TOTAL |
| Farmer Representatives | 540 | 178 | 718 |
| District Technical staff | 81 | 8 | 89 |
| ACDP / MAAIF | 47 | 20 | 67 |
| World Bank Team | 4 | 7 | 11 |
| TOTAL | 672 | 213 | 885 |

From the above table, the eight hundred and eighty five invited participants registered at the expo but there are other guests from Exhibitors, media and general public that attended the expo and were not captured.

Leaders of FO negotiating with one of exhibitors during the Expo

3.2 Opening Ceremony

The expo started with an opening prayer and singing of the National and East African Anthems.

The project Coordinator Dr. Henry N. Opolot set the scene by explaining to participants the major objectives of the Expo. The remarks of the PS were read by the Director Agricultural Extension Services **Mrs Beatrice Byarugaba** (Annex 1).

The participants were addressed by **Mr. Antony Thompson**, World bank Country Manager, Uganda office who emphasized the importance of partnership between Government of Uganda and World Bank in addressing Country's challenges (Annex 2)

Mr. Antony Thompson addressing participants during the Expo

The expo was officially opened by Chief Guest Hon. Vincent Sssempija, Minister of Agriculture, Animal Industry and Fisheries (MAAIF) (Annex3). He encouraged grantees to comply with the conditions in the grants agreement and take full advantage of this opportunity which ACDP is presenting.

Hon Vincent Sssempija addressing participants in the expo

3.3 Handing over cheque

A dummy check of Thirty billion Ugandan shillings (UGX 30,000,000,000) was signed by Permanent Secretary MAAIF and thereafter handed over to the group leaders. This handover was witnessed by Chief Guest, World Bank Officials and MAAIF senior management.

The PS signing the dummy cheque as ACDP Project Coordinator witnesses

Jubilations as FO leaders receive the dummy cheque from Chief Guest

3.4. Viewing Exhibition Stalls, Negotiations, Signing LPOs and Contracts.

The Chief Guest led a team to inspect the stalls displaying available agricultural equipment and machinery. This marked the official opening of the Expo and thereafter Farmers started engaging suppliers of requested equipment and making choice. The farmers were guided by District Technical Team and MAAIF Engineers on selection of agricultural machinery.

After picking quotations, FO leaders held sideline meetings to agree on suppliers and type of equipment to be supplied. After making a choice, they again met with Enterprise Uganda staff to finalize their investment plans with actual figures for the selected equipment. During these discussions, Enterprise Uganda would also review investment chosen and ensure that the deal is closed before leaving the expo.

Enterprise Uganda Staff engaging FO leaders on appropriateness of the selected equipment to their needs

FO leaders examining proforma invoices picked during the expo

At the end of the day, the following FOs got suppliers of selected machinery.

To be added on

FOs that did not complete their investment make decisions during the expo, were given up November 30, 2019 to submit their decision to MAAIF through District Agricultural Officers' office. These submissions will then be submitted to PCU by 7th December, 2019.

3.5 Issuance of Grant Award Letters

During the closure session, grant award letters were issued to one hundred and twenty three (123) Farmer Organizations (Annex4.) This session was led by Project Coordinator and Director of Agricultural Extension Services at the MAAIF.

4.0 Key messages / lessons learnt

- There are not many manufacturers of agricultural machinery and majority are middle men. Much as we had invited 38 companies, only 28 attended the Expo.
- The FO leaders expected to find most of machinery in the expo and make a booking like they do for other general merchandise. Unlike, other equipment the requested items are manufactured on order to meet the customers' specifications.
-

5.0: Next steps / Recommendations

Overall, the expo was successfully conducted as explained in the above sections as most FOs finalized selection of their service providers. Considering the feedback from participants and responses during various sessions, it was clear that leaders had created direct linkages with suppliers of requested equipment.

5.1 Recommendations

- i) In future, this activity can be conducted at cluster level where these vetted service providers are presented to FO leaders. This will save money, time and ensure full compliancy with community procurement Guidelines
- ii) The Procurement Committees should be strengthened so that they are able to conduct these transactions by themselves.
- iii) There is need to explore avenues of directly involving District PDU staff in training of FOs leaders so that they backstop FO procurement committees when they need support.
- iv) K

5.2 Next Steps

- Some FOs to consult their members and submit final Business Plans to District by 30th November 2019

- Approval of Matching Grants and Operations Manual by the World Bank
- Preparation and signing of grant agreements
- Disbursement of funds

Annex 1: Speech by Permanent Secretary, MAAIF

MINISTRY OF AGRICULTURE, ANIMAL INDUSTRY AND FISHERIES

WELCOME REMARKS BY THE PERMANENT SECRETARY

DELIVERED AT THE AGRIBUSINESS MATCHMAKING EXPO

AT

MANDELA NATIONAL STADIUM, NAMBOOLE

WAKISO DISTRICT

ON THE 18th of NOVEMBER 2019

Honourable Ministers
Honourable Members of Parliament
Representatives of the World Bank present,
The Permanent Secretaries/Representatives
Representatives of Ministries, Departments and Agencies of Government,
Representatives of Operation Wealth Creation (OWC),
Staff from the Ministry of Agriculture, Animal Industry and Fisheries,
Staff of the District Local Governments,
The Private Sector,
Our farmers,
The media,
Ladies and Gentlemen

It is my greatest pleasure to welcome you to the Agribusiness Matchmaking Expo.

On behalf of the Ministry of Agriculture, Animal Industry and Fisheries and on my own behalf, I wish to most sincerely welcome the Hon Ministers, the World Bank Team, Hon Members of Parliament, Permanent Secretaries, District Leaders, Farmer Organization representatives, the Private Sector, Media and all of you invited guests.

The Ministry of Agriculture, Animal Industry and Fisheries in collaboration with the World Bank, are hosting this Agribusiness Matchmaking Expo today. The aim of this Expo is to facilitate the implementation of the Government of Uganda's Agriculture Cluster Development Project (ACDP), financed by the World Bank.

The overall objective of the ACDP project is to support activities that raise both productivity and production of five priority crops (Maize, beans, Cassava, rice and Coffee) in 12 selected geographical clusters.

ACDP is designed in four components

1. Supporting the intensification of on-farm production through provision of subsidised inputs using electronic voucher (e-voucher) system.
2. Improving value addition and market access through provision of matching grants for post-harvest and value addition facilities and also fixing road chokes.
3. Strengthening policy and regulatory framework in input quality assurance.

4. And the fourth component is Coordination, monitoring and Evaluation and ICT applications.

The activity we are holding today supports ACDP activities under Subcomponent 2.2 (*ACCE-level Warehousing, Value addition, and Marketing*). The aim is to support investments by farmer organisations at the community-level in post-harvest handling and for value addition. The instrument for this support is the Matching Grants mechanism which finances two-thirds of the investments in equipment, facilities, and services for selected business plans prepared by farmer organisations.

This event will facilitate contractual partnerships between selected agribusiness farmer organisations and suppliers of post-harvest management and agro-processing equipment. A total of 38 suppliers are today showcasing their equipment, and 123 selected farmer organisations will have the opportunity to select, negotiate and procure equipment according to the business plans that were submitted.

This is the first in a series of Match making events that we as a Ministry shall be holding. We encourage all farmers here today and those listening in through the radios and TVs to go to your respective District Agricultural Offices to pick applications forms and submit business plans for matching grants under ACDP.

With these few remarks, I would like to once again welcome you all to this event.

Thank you for your attention.

For God and my country

Pius Kasajja Wakabi

PERMANENT SECRETARY

MINISTRY OF AGRICULTURE, ANIMAL INDUSTRY AND FISHERIES

TO BE PROVIDED

Annex 3: Speech by Chief Guest

**REPUBLIC OF UGANDA
MINISTRY OF AGRICULTURE, ANIMAL INDUSTRY AND
FISHERIES
SPEECH OF THE HON. MINISTER OF AGRICULTURE, ANIMAL
INDUSTRY AND FISHERIES**

DELIVERED AT THE AGRIBUSINESS MATCHMAKING EXPO

IN

**MANDELA NATIONAL STADIUM, NAMBOOLE
WAKISO DISTRICT
ON THE 18th of NOVEMBER 2019**

Honourable Ministers
Honourable Members of Parliament
Representatives of the World Bank present,
The Permanent Secretaries/Representatives
Representatives of Ministries, Departments and Agencies of Government,
Representatives of Operation Wealth Creation (OWC),
Staff from the Ministry of Agriculture, Animal Industry and Fisheries,
Staff of the District Local Governments,
The Private Sector,
Our farmers,
The media,
Ladies and Gentlemen

It is my greatest pleasure to be with you this morning to officiate at the opening of the Agribusiness Matchmaking Expo. I wish to thank the Permanent Secretary and the Project Coordination Unit for inviting me to this occasion.

May I now take the opportunity on behalf of the Government of Uganda and on my own behalf to welcome our counter parts from World Bank led by the Country Manager Mr. Antony Thompson, Hon Ministers, Hon Members of Parliament, District Leaders, Farmer Organization representatives, the Private Sector, Media and all invited guests. I thank you all for coming to be part of first Agribusiness Matchmaking Expo. The first of its kind in Uganda.

The agriculture sector in Uganda is faced with three major challenges which are also the opportunities and this project is addressing all of them.

1. Production and Productivity.
2. Post-Harvest Handling and Value Addition.
3. Competitiveness and Market Access.

This Expo brings together all the representatives of the Farmer Organisations from 24 districts in the 5 pilot clusters and selected providers of Machinery. This is aimed at creating an enabling environment for both parties to transact business in a transparent manner and ensure that our farmers get quality equipment.

I congratulate the first batch of our 123 grant beneficiaries under the project for having reached this stage.

The winners come from the following clusters;

Cluster 1 (Kalungu, Kyotera, Masaka, Mpigi, Rakai) has **31** winners

Cluster 2 (Bugiri, Bugweri, Iganga, Namutumba) has **27** winners

Cluster 6 (Amuru, Gulu, Nwoya, Omoro) has **20** winners

Cluster 11 (Bushenyi, Isingiro, Kabale, Ntungamo, Rubanda, Rukiga) has **30** winners

Cluster 12 (Arua, Maracha, Nebbi, Pakwach, Yumbe) has **15** winners

We expect to award another batch of 177 from the 57 project target districts in this financial year. I request farmers listening to me from the participating districts to approach your respective District Agricultural Officers to pick application forms and for the matching grant.

I encourage all winners to comply with the conditions in the grants agreement and take full advantage of this opportunity which this project is presenting. My sincere hope is that the acquisition of this equipment will enable you to add value to your commodities and bring increased income at household level for the betterment of our economy and job creation. This is line with the NRM manifesto 2016- 2021 titled 'Taking Uganda to modernity through Job Creation and inclusive development'. This project and other initiatives implemented by this government is an assurance to Ugandans of NRM's unwavering commitment to Transform Subsistence Farming into Commercial Agriculture.

I call upon all Ugandans to embrace these programs and actively participate to remove poverty from our country.

May I now, with pleasure and honour, announce that Agribusiness Matchmaking Expo is officially open.

Thank you for your attention.

For God and my country

Hon. Vincent Bamulangaki Sempijja (MP)
